The primary task for implementation of this project is revival of E-40 navigable waterway and river transportation on the route the Baltic Sea – Gdansk – the Dnipro River – the Black Sea.

From UkrAgroConsult, Oct 3, 2017 A Memorandum of Cooperation and Partnership between Kherson Regional State Administration, Gomel Regional Executive Committee and Nibulon was signed at the 10th International Investment Forum “Tavrian Horizons: cooperation, investment and economic development” held in Nova Kakhovka on September 29, Nibulon said in a company release. Nibulon’s General Director Oleksiy Vadaturskyy introduced the company’s new investment plans on developing logistics in Ukraine. At present Nibulon is Ukraine’s leader in agricultural exports. Therefore, the company has the possibility to meet the needs of Belarus in high-quality agricultural products that will be delivered by water transport. Kherson region plays an important role in implementation of these investment plans. The primary task for implementation of this project is revival of E-40 navigable waterway and river transportation on the route the Baltic Sea – Gdansk – the Dnipro River – the Black Sea, namely: dredging on the limiting areas of the Dnipro Reservoir and Dniprodzerzhynsk Reservoir, increasing the waterway on the area of the Kyiv Hydroelectrical Power Station – Nizhni Zhary required for river-sea vessels.
