**Photo: Inside the Cemetery of Soviet soldiers in Bielsko-Biala. Monuments like this, in cemeteries or over burial grounds, are also protected, but the definition of what constitutes a burial ground is open to some interpretation.**

By Amos Chapple for RFE/RL, Oct 6, 2017 A new law targeting the legacy of Poland's Soviet-dominated past requires the removal of monuments that glorify communism. The legislation has reignited a long-simmering debate in Poland, and prompted threats of a harsh response from Russia. To access an outstanding photographic feature on this subject, link below:
