**Ukrainian Film Club @ Columbia University**

**will screen the feature documentary by Ostap Kostiuk**

**The Living Fire, 2014**

This stunningly beautiful and poetic movie chronicles three generations of Ukrainian Carpathian shepherds who struggle to keep their ancient trade alive in the face of modernity. It is a story about pitiless daily labor that knows no weekends, about a harmonious world that we've lost in our search for comfort, about the childhood that is left behind when one takes on the role of an adult &hellip; The *Living Fire* has been a critical and viewers's success at many film festivals around the world.
